USE LONG CUTOUTS

If you have ordered seat reinforcement to make your furniture suitable for sitting, please follow these instructions:

Installing the Seat Reinforcement:
Slide the seat box over the seat reinforcement. Then follow the remaining instructions to fully assemble the furniture.

Cabinet / TV-cabinet

- 1 box | 90 x 50 x 45cm **(8-BK)**
- panel | white or wood look
- 1 cross | two cardboard plates slide into each other
- 4 plastic feet | optional
- Velcro rounds | hard and soft

Step 1: Close the box on one side and secure them using the tabs.

Step 2: Slide the two plates into a cross.

Step 3: Slide this cross into the opening of the box. Close the box as described in step 1.

Step 4 and 5: Close the box and and attach (optional) the four feet in the corners.
Step 6: Mount the soft Velcro circles with the adhesive side on the designated positions on the panel. Then attach the hard Velcro circles on top of the soft, fluffy side of the circles already mounted.

Place the panel onto the box and press the Velcro firmly.

TIP: First position the front of the panel on the box. Once it's properly aligned, place the top side on the box and press the panel (Velcro) firmly in place.

Step 7 - For taller cabinets, the boxes can be stacked.
Note: For stacked products, only the top box should contain a cross.
